

# Setup & Usage for “CanadaPost AddressComplete Integration” App

## Setup

1. Visit [CanadaPost - AddressComplete](#) to obtain your API Key. If you do not already have an AddressComplete account, you may “Start Your Free Trial”. You will receive access to the AddressComplete service for a free trial.

Download the Canada Post Mobile App for: [Apple](#) | [Blackberry®](#) | [Android](#)

Français

**Capture the right address every time.**  
Make the most of every customer.

**TRY IT OUT**

Start typing a street address or postal code

**Start Your Free Trial**

2. Once you have created your account, you will want to create a New Installation.

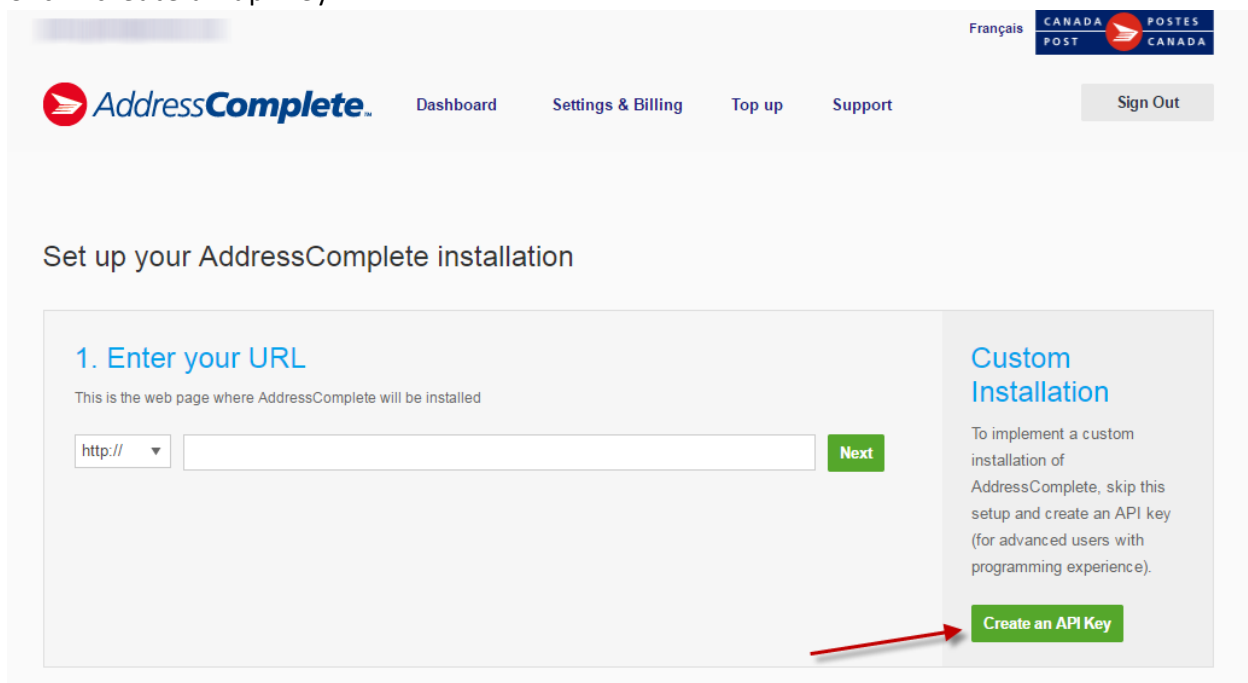

The screenshot shows the AddressComplete dashboard. At the top right, there are language options (Français) and logos for Canada Post and Postes Canada. The main navigation includes 'AddressComplete', 'Dashboard', 'Settings & Billing', 'Top up', 'Support', and a 'Sign Out' button. The dashboard features two main sections: 'Total Usage' on the left, which is a line graph showing usage from June 23 to 29, and 'Your Balance' on the right, which shows a balance of 0 and an estimated expiry date of 11/07/2017, with a 'Top up' button.

### Your AddressComplete Installations

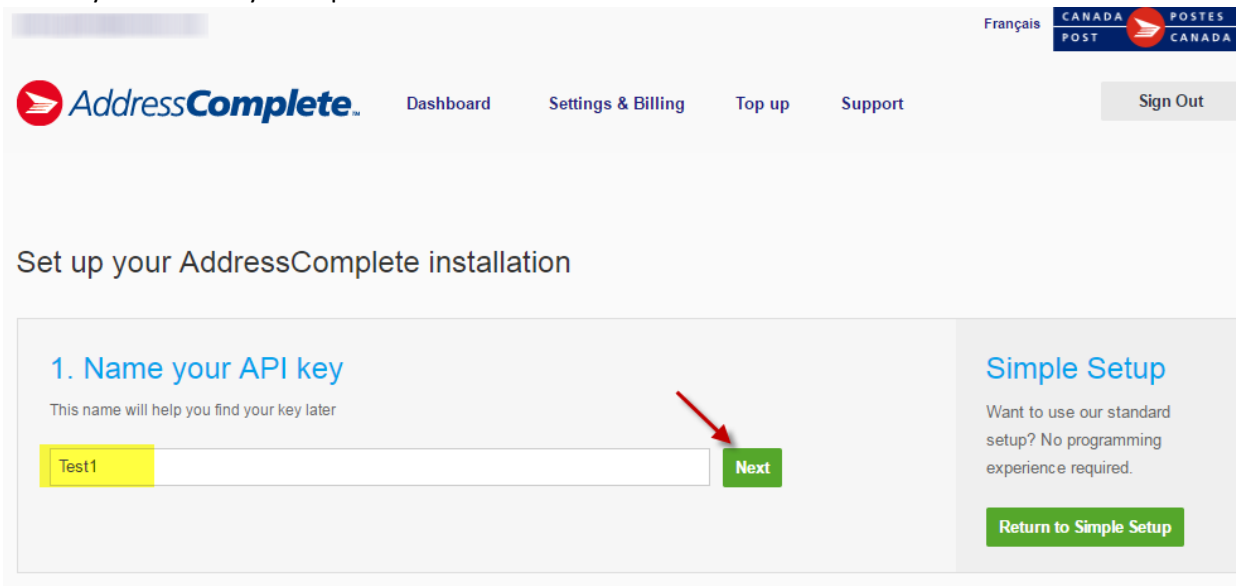

[+ Create New Installation](#)

3. Click "create an api key."

The screenshot shows the 'Set up your AddressComplete installation' page. It has the same header as the dashboard. The main heading is 'Set up your AddressComplete installation'. Below it, there is a section titled '1. Enter your URL' with the instruction 'This is the web page where AddressComplete will be installed'. There is a dropdown menu with 'http://' and an empty text input field, followed by a 'Next' button. To the right, there is a 'Custom Installation' section with instructions: 'To implement a custom installation of AddressComplete, skip this setup and create an API key (for advanced users with programming experience)'. At the bottom of this section is a 'Create an API Key' button, which is highlighted with a red arrow.

- Name your API key and press Next.

The screenshot shows the AddressComplete setup interface. At the top right, there are language and postal service options: "Français", "CANADA POST", and "POSTES CANADA". The main navigation bar includes the AddressComplete logo and links for "Dashboard", "Settings & Billing", "Top up", "Support", and a "Sign Out" button. The main heading is "Set up your AddressComplete installation". The primary task is "1. Name your API key", with a sub-instruction: "This name will help you find your key later". A text input field contains "Test1" and is highlighted with a yellow background. To its right is a green "Next" button, which is pointed to by a red arrow. On the right side of the setup area, there is a "Simple Setup" section with the text: "Want to use our standard setup? No programming experience required." and a green "Return to Simple Setup" button.

- Your API key will be displayed in the general settings. Take note of your key as you will need it when setting up your CanadaPost AddressComplete integration application.

6. For additional options and information about the Canadapost AddressComplete application, please review the support information provided at: [CanadaPost Address Complete Support](#)

7. Assign User App Permissions by using the search function and typing “users” in the search field.

The screenshot shows the Dynamics 365 interface with a search bar containing the text "users". Below the search bar, there are two search results listed in a table. A red arrow points to the "Users" link in the first row.

NAME	DEPARTMENT
<a href="#">Users</a>	Administration/IT Adm
<a href="#">ADCS Users</a>	Application Setup/War

8. Drill into user.

The screenshot shows the Dynamics 365 interface with the "Users" list view. The "VIEW - USERS" header is visible. A red arrow points to the "DEMOUSER" entry in the list.

USER NAME	FULL NAME	STATE
DEMOUSER	...	Enabled

9. Add WS-ADDRCOMP permission set.

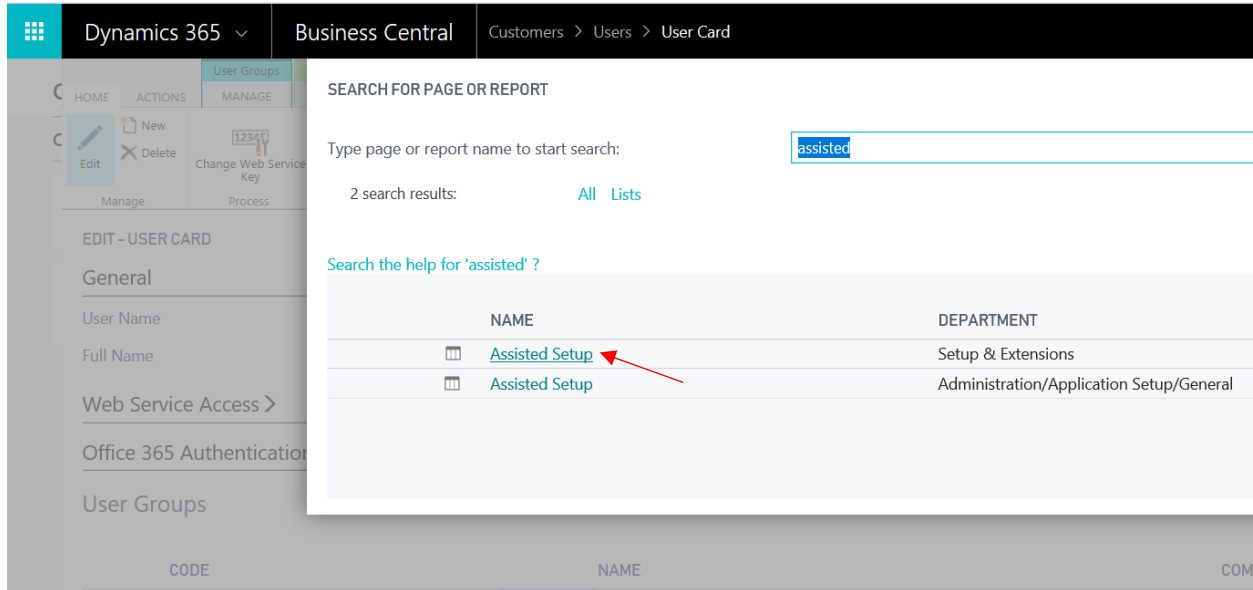

Navigation: Dynamics 365 > Business Central > Customers > Users > User Card

## 10. Navigate to Assisted Setup.

The screenshot shows the Dynamics 365 Business Central interface. The breadcrumb navigation at the top reads "Customers > Users > User Card". A search overlay is active, displaying "SEARCH FOR PAGE OR REPORT" and a search input field containing "assisted". Below the search bar, it indicates "2 search results:" and provides links for "All" and "Lists". A link "Search the help for 'assisted'?" is also visible. A table lists the search results:

	NAME	DEPARTMENT
	<a href="#">Assisted Setup</a>	Setup & Extensions
	<a href="#">Assisted Setup</a>	Administration/Application Setup/General

A red arrow points to the first "Assisted Setup" link in the table. The background interface shows the "EDIT - USER CARD" page with various fields like "User Name", "Full Name", and "Web Service Access".

## 11. Launch AddressComplete Integration Setup

Dynamics 365		Business Central		Customers > Users > User Card > Assisted Setup

12. Click Next to begin setup.

WSI0004 SETUP WIZARD

WELCOME TO THE ADDRESS COMPLETE INTEGRATION SETUP WIZARD.

To be able to use the AddressComplete address validation service provided by CanadaPost, you need to supply your API key information.

LET'S GO!

Choose Next so you can configure your AddressComplete integration.

13. Enter API Key provided by CanadaPost Address complete.

WSI0004 SETUP WIZARD

SPECIFY YOUR ADDRESS COMPLETE API KEY

API Key

A rectangular text input field with a light blue border. The field is filled with a series of black dots, indicating that the text is hidden. A vertical cursor is visible at the end of the dots.

Back Next Finish

Select your options and press next to continue.

WSI0004 SETUP WIZARD

SPECIFY YOUR ADDRESS COMPLETE INTEGRATION OPTIONS.

Maximum Suggestions	<input type="text" value="5"/>
Maximum Results	<input type="text" value="5"/>
Reuse Found	<input type="checkbox"/>
Address Language	<input type="text" value="System"/>

**Maximum Suggestions** - The maximum number of autocomplete suggestions to return from the AddressComplete API.

**Maximum Results** - The maximum number of retrievable address results to return.

**Reuse Found** - This feature will re-use a previously found address if possible instead of making a new request to the AddressComplete service. This can save you money because you will not be charged for an API address lookup in this case.

**Address Language** - Address Language

This option will attempt to use the selected language option for the address information. If the chosen language is not available, the first language returned by the service will be used.

Complete the setup by selecting Finish.

WSI0004 SETUP WIZARD

THAT'S IT!

Choose Finish to complete the AddressComplete integration setup.

HelpLbl

[To learn more about the AddressComplete i...](#)

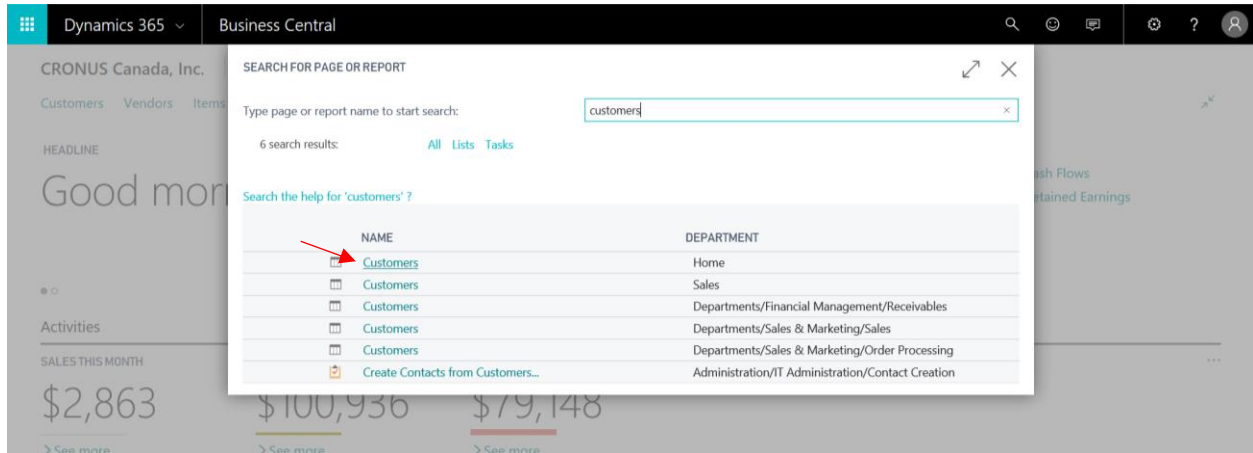

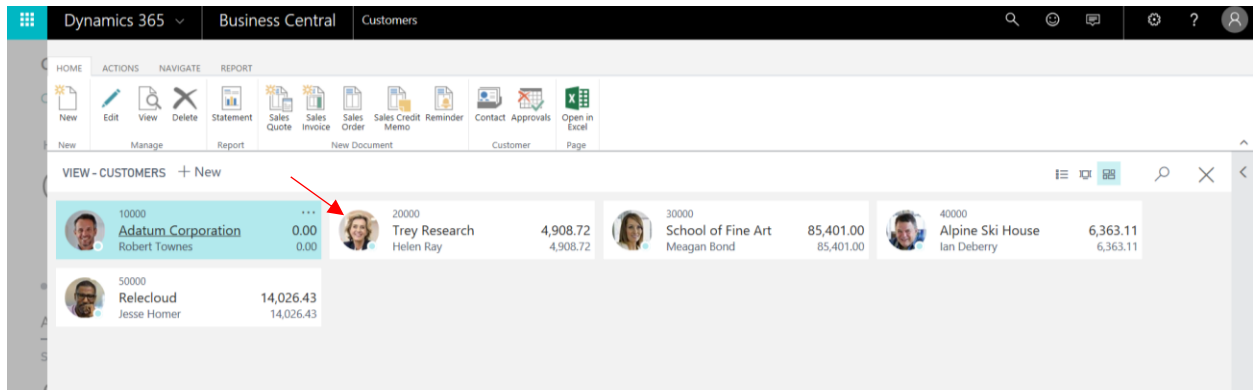

## Usage

The AddressComplete integration will allow you to search for and validate addresses throughout Microsoft D365 Business Central.

Customer Address - Use the magnifying glass to search for Customers.

Drill into the Customer for which you would like to validate their address.

Press the Address Validate action. The current Address information will be fed into the AddressComplete address verification page for validation.

If you choose No, the address information will not be updated within D365 Business Central and your API key will not be charged for a lookup. Selecting Yes will update the address information in D365 Business Central based on the data provided from the CanadaPost AddressComplete API.

### Revising Addresses

When you are on the AddressValidate page, you can adjust your search criteria. The Country is defaulted based on the address information provided by D365 Business Central. But, you can change this to any country code defined in your D365 Business Central environment. Let's try changing the Country on your previous example to "US".

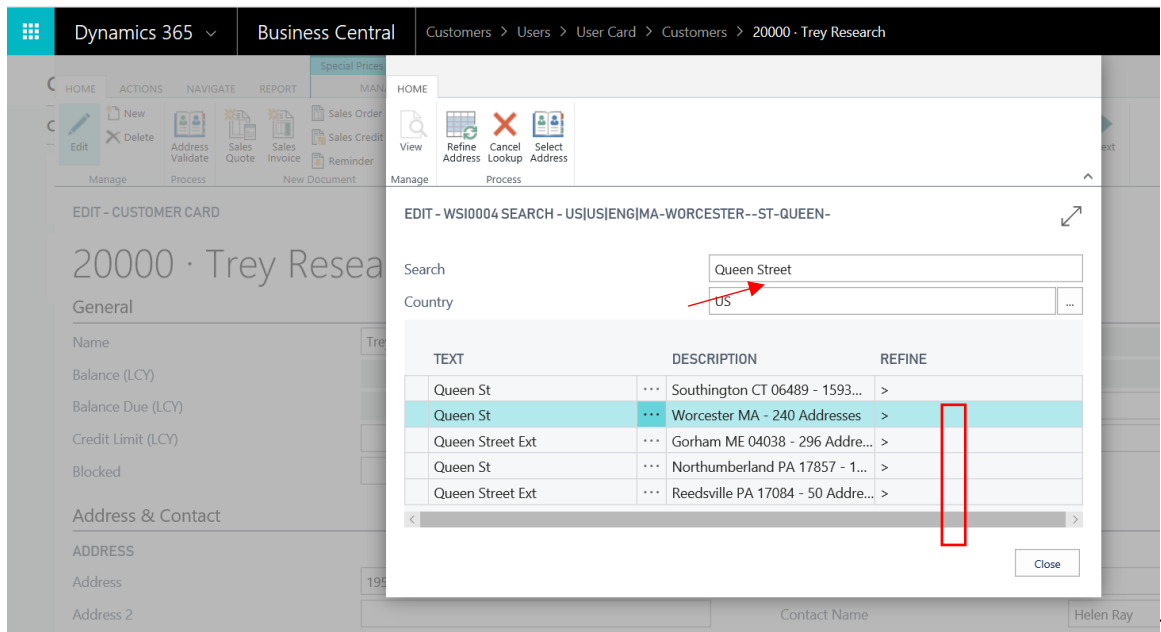

EDIT - WS10004 SEARCH - US|US|ENG|VA-RICHMOND--BLVD-MEADOWDALE-

Search: 1950 Meadowdale Blvd  
Country: US

TEXT	DESCRIPTION	REFINE
Meadowdale Blvd	Richmond VA 23234 - 1069 Ad...	>

You are now presented with options to choose based on your Search string. Let's adjust the search string to be Queen Street.

EDIT - WS10004 SEARCH - US|US|ENG|MA-WORCESTER--ST-QUEEN-

Search: Queen Street  
Country: US

TEXT	DESCRIPTION	REFINE
Queen St	Southington CT 06489 - 1593...	>
Queen St	Worcester MA - 240 Addresses	>
